Learn more about the SR-710 Tunnel Technical Study. Tunnel Technical Study staff will be available to answer questions about the Study. Caltrans and Metro are currently conducting the SR-710 Tunnel Technical Study. All practical alternatives for extending the SR-710 through the use of a tunnel are being considered. The study area includes portions of Los Angeles, Pasadena, South Pasadena, Alhambra, Monterey Park, San Marino, La Cañada Flintridge and Glendale. The Study involves research, exploration and technical analysis of soil conditions found at depths of more than 250 feet.

A final report of the soil testing results will be made public by late 2009.
